**2018 SEPTAGE MAINTENANCE PROGRAM**

DATE : 03/05/18

Dear Resident,

As a West Brandywine Township resident located within Sewage Maintenance District 1 with an on-lot septic system located/servicing your property, you are receiving this notification to inform you that you are required to have a routine inspection of the system performed by an Inspector/Hauler registered with the Chester County Health Department, no later than December 31, 2018. Previous notification of the requirements of the amended Chapter 148 were provided in the Township Newsletters, Snippets, as well as the Township Website. These requirements are a condition of DEP's approval of the Townships 537 Sewage Facilities Plan required by the DEP. The intent of the program is to protect the quality of water resources throughout the Commonwealth. The frequency of system maintenance shall be required not less than once every three years. The Board of Supervisors have established administrative procedures necessary to sustain the provisions specified within the ordinance, which includes a Twenty-Five Dollar (\$25.00) permit fee payable to the Township upon the servicing, inspection and reporting of the septic system.

Full text of Chapter 148, Article V: Installation and Maintenance of Individual On-lot Disposal Systems may be found on the Township Website by following the link for the Code of the Township, or by request at the Township Building.

Feel free to contact the Township with any questions regarding the Sewage Maintenance Program. Please contact me at 610-380-8200 should you have any questions.

Sincerely,

*Dale Barnett*

Township Manager

Please return the above portion with your payment. Remit to:  
 West Brandywine Township, 198 Lafayette Rd, West Brandywine, PA 19320
